This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books: * —

LATIN DEPARTMENT.

The whole of Virgil,
The whole of Cæsar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.

Felton's Greek Reader, or the whole of the Anabasis of Xenophon and the first three books of the Iliad (omitting the Catalogue of Ships in the second book),

Sophocles's Greek Grammar, or Crosby's, or Hadley's, including Prosody,

And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

Davies's, Chase's, or Eaton's Arithmetic,

Euler's Algebra, or Davies's First Lessons in Algebra, to "The Extraction of the Square Root," or Sherwin's Common School Algebra,

And "An Introduction to Geometry and the Science of Form, prepared from the most approved Prussian Text-Books," as far as the Seventh Section, or Hill's "First Lessons in Geometry."

HISTORICAL DEPARTMENT.

Mitchell's Ancient and Modern Geography.

Worcester's Elements of History, — the Ancient History only.

[After 1861, Smith's Smaller History of Greece, or Sewell's History of Greece will be substituted for so much of Worcester's History as relates to Greece.]

---

* Equivalents for the prescribed text-books, if *real* equivalents, are accepted.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge. If they have more time than is requisite for this purpose, instructors are desired and advised, for obvious reasons, not to anticipate the books read in College, but to direct the attention of their pupils to other authors.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to College, whether to the Freshman Class or to advanced standing, must in the first place be examined for admission to the Freshman Class.

The regular examination for the Freshman and the Sophomore Class will take place on the Monday and Tuesday of Commencement week (July 15th and 16th, 1861), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.

The continuation of the examination of those who offer themselves for the Junior and the Senior Class will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and the Sophomore Class, at the beginning of the First Term, on Thursday and Friday, August 29th and 30th, 1861, attendance on both days being required. On the next Monday, September 2d, the examination of candidates offered for the Junior and the Senior Class, including those offered on Commencement week, will be continued and concluded. The candidates will assemble on Thursday, August 29th, in No. 16 University Hall, at 8 o'clock, A. M.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be intended that, if admitted, he shall immediately join his Class.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to such admission to advanced stand-

ing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

2. In all the *required* studies, and, if after the commencement of the Junior year, in one of the *elective* studies, already gone over by the Class for which he is offered.

He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

4. *Religious Instruction.* Whately's Morals and Christian Evidences.
5. *Elocution.* Lessons in Orthoepy.

SECOND TERM.

1. *Greek.* Felton's Greek Historians. — Lysias. — Exercises in writing Greek.
2. *Latin.* Horace, Odes and Epodes. — Cicero de Senectute and de Amicitia. — Zumpt's Grammar. — Ramsay's Elementary Manual of Roman Antiquities. — Exercises in writing Latin.
3. *Mathematics.* Peirce's Algebra, Chapters V., VI., VII., IX. — Exponential Equations and Logarithms. — Peirce's Trigonometry (Plane).
4. *History.* Smith's History of Greece. Liddell's History of Rome.
5. *Elocution.* Lessons in Expression.

SOPHOMORE CLASS.

FIRST TERM.

1. *Grammar.* Vernon's Anglo-Saxon Guide. — Themes.
2. *Mathematics.* Peirce's Trigonometry (Navigation and Surveying, Spherical Trigonometry). — J. M. Peirce's Analytic Geometry, to Chapter VI.
3. *Greek.* Plato's Apology and Crito. — Thucydides. — Exercises in writing Greek.

4. *Latin.* The Oration of Cicero for Cluentius. — Beck's Syntax, and Zumpt's Grammar. — Exercises in writing Latin.
5. *Elocution.* Lessons in Orthoepy and Expression.
6. *Chemistry.* Stöckhardt's Principles of Chemistry. — Lectures.
7. *French.* Fasquelle's Grammar. — Le Grand Père. — Arnoult's Pronouncing French Reader.

SECOND TERM.

1. *Rhetoric.* Themes. — Readings in English Literature.
2. *Mathematics.* J. M. Peirce's Analytic Geometry, finished. — Peirce's Algebra, Chapter IV.
3. *Greek.* The Clouds of Aristophanes. — Exercises in writing Greek.
4. *Latin.* Terence. — Exercises in writing Latin.
5. *French.* The same books as in the First Term; and Robertson's Grammar.
6. *Natural History.* Gray's Botanical Text-Book.
7. *Chemistry.* Stöckhardt's Principles of Chemistry. — Lectures.
8. *Elocution.* Lessons in Action. — Rhetorical Analysis and Reading.

JUNIOR CLASS.

FIRST TERM.

1. *Physics.* Herschel's Outlines of Astronomy, last edition. — Lectures on Electrostatics.*
2. *Rhetoric.* Themes and Declamations.
3. *Molecular Physics.* Cooke's Chemical Physics, Vol. I.
4. *Greek.* The Antigone of Sophocles. — Exercises in writing Greek. — The Clouds of Aristophanes. — Modern Greek, once a week.
5. *Greek Literature.* Lectures.
6. *Latin.* The Heauton Timorumenos and Eunuchus of Terence. — Latin Exercises and Extemporalia.

---

* As the different Classes, for convenience, *commence* the study of Physics with different books, from year to year, the full course in this department appears only by consulting the Catalogue for two successive years, with reference to the same Student.

ELECTIVE STUDIES.

1. *Mathematics.* Peirce's Algebra, Chapter VIII. — Peirce's Curves and Functions, Vol. I.
2. *Chemistry.* Galloway's Analytical Chemistry, with instruction in the Laboratory.
3. *French.* Robertson's Grammar. — Arnoult's Pronouncing French Reader. — Molière.
4. *German.* Douai's Grammar and Exercises. — Follen's German Reader.
5. *Spanish.* Josse's Grammar and Exercises. — Sales's La Colmena Española. — Iriarte's Fábulas Literarias.*

SECOND TERM.

1. *Rhetoric.* Whately's Rhetoric. — Themes and Declamations.
2. *Physics.* Lardner's Course of Natural Philosophy. — Lectures on Electrodynamics.
3. *Greek.* The Agamemnon of Æschylus. — Exercises in writing Greek. — Modern Greek once a week.
4. *Latin.* Tacitus. — Latin Exercises and Extemporalia.

ELECTIVE STUDIES.

1. *Mathematics.* Peirce's Curves and Functions, Vol. I. concluded. Vol. II. commenced.
2. *Chemistry and Mineralogy.* Dana's Manual of Mineralogy. — Crystallography.
3. *French.* The same books as in the First Term.
4. *German.* The same books as in the First Term.
5. *Spanish.* Don Quijote, Sales's edition. — [Cancio-Bello's] Historia de la Revolucion de los Estados Unidos.
6. *Botany.* Lectures.

SENIOR CLASS.

FIRST TERM.

1. *Logic and Philosophy.* Bowen's Ethics and Metaphysics. — Thomson's Outline of the Laws of Thought. — Hamilton's Lectures on Metaphysics. — Forensics.

---

* The Spanish text-books are mostly from editions prepared, with notes, by F. Sales.

2. *Physics.* Lectures on Electrostatics.
3. *History.* Guizot's History of Civilization in France and in Europe.

ELECTIVE STUDIES.

1. *Mathematics.* Peirce's Curves and Functions, Vol. II. concluded.
2. *Greek.* Plato's Gorgias. — Greek Composition.
3. *Latin.* Juvenal (continued). — The Miles Gloriosus of Plautus. — Latin Exercises and Extemporalia.
4. *German.* Douai's Grammar. — Goethe's Clavigo. — Lessing's Emilia Galotti. — Written translations into German.

8. *Geology.* Lectures.
9. *Anatomy.* Lectures.

SECOND TERM.

1. *Philosophy.* Butler's Sermons and Analogy. — Bowen's Political Economy. — Hamilton's Logic. — Forensics.
2. *Physics.* Lectures on Electrodynamics.
3. *History.* Constitutional History of England and of the United States.

ELECTIVE STUDIES.

1. *Mathematics.* Peirce's Analytical Mechanics.
2. *Greek.* Demosthenes on the Crown. — Greek Composition.
3. *Latin.* Catullus. — Latin Compositions.
4. *German.* The same books as in the First Term.
5. *Spanish.* Calderon's El Príncipe Constante. — Calderon's El Mágico Prodigioso.
6. *Italian.* Monti's Grammar and Reader.
7. *Zoölogy.* Lectures.
8. *Modern Literature.* Lectures.

The Hebrew Language is taught (to those who desire to learn it) by PROFESSOR NOYES.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

Senior Class.

Modern Literature, — Professor Lowell, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — Professor Wyman, Tuesday and Thursday, at 10 o'clock, in Boylston Hall.

Geology, — Professor Agassiz, to the Lawrence Scientific School, Tuesday and Thursday, at 12 o'clock, in Boylston Hall.

Mathematics, — Professor Peirce, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

Electrostatics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Greek Literature, — President Felton, Thursday, at 12 o'clock, in No. 16 University Hall.

Electrostatics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Sophomore Class.

Chemistry, — Professor Cooke, Friday, at 12 o'clock, in Boylston Hall.

Freshman Class.

College Studies, — President Felton, Monday, at 10 o'clock, in the Old Chapel.

SECOND TERM.

Senior Class.

Philosophy, — Professor Bowen; — or *History*, — Professor Torrey, Friday, at 5 o'clock, in Harvard Hall.

Modern Literature, — Professor Lowell, Thursday, at 4 o'clock, in Harvard Hall.

Electrodynamics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Zoölogy, — Professor Agassiz, to the Lawrence Scientific School, Tuesday and Thursday, at 12 o'clock, in the Zoölogical Museum.

Junior Class.

Electrodynamics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — Professor Gray, Tuesday and Thursday, at 10 o'clock, in Holden Chapel.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by the Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, German, French, and Spanish are elective studies, and in the Senior year Latin, Greek, and Italian are added to these electives; the rest are required.

In the last two years of the College course each Student must take one of the elective studies assigned to his Class; he is also allowed to take another as an *extra*. The elective study, when chosen, becomes a required study for that year to those who choose it, and credit is given for it on the scale of rank, as in the case of required studies; but no credit is given for *extra* studies.

EXAMINATIONS.

EACH Class is examined annually, and in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. The course will extend to the higher branches of part-singing.

Separate classes for graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. The fee for attendance and instruction is two dollars a Term.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, ...	$75.00
Rent and care of Room, in the College Buildings, . .	20.00
Board for 40 weeks at $3.50 per week, ...	140.00
Text-books (average), ...	12.00
Special Repairs, &c., ...	from 1 to 2.00
	$249.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $8.00 per cord for wood, and $6.00 per ton for coal. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $2.75 to $4.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-TWO Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars: —

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

And Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the PRESIDENT'S SCHOLARSHIPS, four to be assigned to each Class.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen new Scholarships will be bestowed by the President and Faculty. Applications from persons who wish to be considered as candidates will be received on or before the 1st day of May of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments to the others, being guided principally by the scale of rank for the year. The nominations and appointments shall be made at the end of each Academic Year, and as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the

Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the beneficiary funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the 15th day of May*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised a few years since by subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging

from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. It has been in operation about nineteen years. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

Besides the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

Meritorious Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, and three in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

Recent Charges against the Character of William Penn.
The Limits of Religious Thought.
Importance of the Study of the Roman Law in the United States.

FOR MEMBERS OF THE SENIOR CLASS.

Fénelon as a Critic, a Theologian, and a Metaphysician.
Ancient Navigation.
Modern Cosmogonies.

FOR MEMBERS OF THE JUNIOR CLASS.

Literary Forgeries.
Gladstone's Views of Homer.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

To HENRY WALKER FROST, *of the Law School.*

COMMITTEE. — The Rev. Rufus Ellis, the Hon. Charles F. Adams, and William Bentley Fowle, Esq.

Senior Class.

To JAMES CHAMPLIN FERNALD, *a First Prize.*
" WILLIAM GARDNER COLBURN, *a Second Prize.*

COMMITTEE. — The Hon. Waldo Flint, W. R. P. Washburn, Esq., and the Rev. Samuel K. Lothrop, D.D.

Junior Class.

To GEORGE HART MUMFORD, *a First Prize.*
" JAMES KENT STONE, *a Second Prize.*

COMMITTEE. — The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and the Rev. John Pryor, D.D.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *first day of May*, in sealed envelopes, accompanied by sealed letters containing the authors' names.

The following are the subjects of the Compositions for the present Academical Year.

For Latin Versification.

Coleridge's *Garden of Boccaccio*, beginning with the verse, "Thanks, gentle artist," to be translated into Latin Hexameters.

For Greek Prose.

The Character and Death of Alcibiades, in Grote's History of Greece, Vol. VIII. (the last four paragraphs in Chap. 66); to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year:—

For Latin Versification.

To John Prentiss Hopkinson, *of the Junior Class.*

For Greek Prose.

To Henry George Spaulding, *of the Senior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 20th, 1860.

The two First Prizes.

To THOMAS BAYLEY FOX, *of the Graduating Class.*
" JAMES VILA BLAKE, *of the Junior Class.*

The three Second Prizes.

To EDWARD AUGUSTUS CROWNINSHIELD, *of the Senior Class.*
" WESLEY CALEB SAWYER, *of the Senior Class.*
" WILLIAM FRANKLIN SNOW, *of the Senior Class.*

V. HARVARD MATHEMATICAL PRIZES.

WITH a view to promote the study of Mathematics in the University, the Hon. John C. Gray has given five hundred dollars, to be divided into two prizes of equal value, which are to be awarded to the two members of the Class to be graduated in 1861, who shall be found, after a special and thorough examination in the Second Term of their Senior year, to have made the greatest proficiency in the study of Pure Mathematics. No prize, however, shall be assigned unless it shall appear to the examiners that the performances of the competitors absolutely merit it.

The same gentleman has also given five hundred dollars more, to be divided into two prizes of equal value, which are to be awarded in the same way, and on the same conditions, to members of the Class to be graduated in 1862.

The prizes for the year 1860 were assigned, after a special and thorough examination,

To CALVIN MILTON WOODWARD, *of the Senior Class.*
" CHARLES APPLETON PHILLIPS, *of the Senior Class.*

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

Extract from the Statutes of the University.

"Chapter XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

Regulations relative to Lodging and Boarding Houses for Undergraduates.

At a meeting of the Faculty of Harvard College: —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

No house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations: —

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the

Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

6. No Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent., as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

But inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those Students only shall be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), or Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $2.75 to $4 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

The LAW LIBRARY consists of about 15,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The Lectures and Course of Study are as follows: —

FIRST YEAR.

Commencing in the years 1860, 1862, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*

Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*

University Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*

Dane Professor. *Kent's Commentaries, Evidence, Contracts.*

University Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1861, 1863, &c.

First Term.

Royall Professor. *Bailments, Corporations, Equity Jurisprudence.*

Dane Professor. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

University Professor. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

Second Term.

Royall Professor. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

Dane Professor. *Kent and Blackstone, Bills and Notes, Partnership.*

University Professor. *Law of Real Property, Sales, Conflict of Laws.*

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.00 to $4.00 per week,	from $60	to $80
Room-rent, including care of room, but not making fires,	16	to 60
Furniture (if the Student does not furnish his room),	8	to 16
Washing,	7	to 15
Fuel, for the First or Winter Term, from August to January,	12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.		
Servant (if one is employed) to make fires, &c.,	5	to 10
	$108	to $206

If Students mess together, or enter into some similar and economical arrangement, board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year: —

FOR STUDENTS THREE TERMS IN THE SCHOOL.

Of the doctrine of Subrogation, in Courts of Equity.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of Covenants for Title, running with the land.

The following prizes were assigned for the last year: —

For Dissertations, "Of the Estate of Mortgagor and that of Mortgagee in Mortgaged Real Property."

To CHARLES FOLSOM WALCOTT, of Salem, Mass., the First Prize of *sixty dollars.*

To THOMAS KINNICUTT, of Worcester, Mass., the Second Prize of *fifty dollars.*

For Dissertations, "How far the Security which Ship-owners have, in the Goods they carry, for the Freight Money, is in the Nature of a Common Law Lien or a Privilegium of the Civil Law."

To ROBERT DICKSON SMITH, of Cambridge, Mass., the First Prize of *fifty dollars.*

To ALFRED LEWIS EDWARDS, of New York, N. Y., the Second Prize of *forty dollars.*

Committee. — HON. IRA PERLEY, of New Hampshire.
HON. EDWARD KENT, of Maine.
WILLIAM R. P. WASHBURN, ESQ., of Massachusetts.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. The *parallel course* is prescribed chiefly for private reading.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, except in extraordinary cases.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong. They are expected statedly to attend religious worship, at such place as their parents or guardians may direct.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required.

I. CHEMISTRY.

Professor Horsford will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M. till 5 o'clock, P. M.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches;

Pharmaceutical Preparations for the Laboratory and Apothecary, and the methods for the determination of the value of drugs generally;

Mineral assays, Metallurgy, analysis of soils and ashes, examination for poisons, manufacture of manures, and the various determinations required in the practice of medicine;

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

In addition to the practical instruction in Chemistry as an art, in which each Student is necessarily a class by himself, there is a systematic daily exercise, on the blackboard, in the solution and explanation of chemical problems.

A knowledge of Algebra, Geometry, and Trigonometry, and an acquaintance with Stöckhardt's Elements of Chemistry, or its equivalent, are required for admission.

Text-Books and Works for Reading and Reference.

Will's Outlines of Chemical Analysis.
Fresenius's Quantitative Analysis.
Regnault's Elements of Chemistry.
Gmelin's Hand-Book of Chemistry.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.
De la Beche's Geological Manual,
Geological Observer, and Researches in Theoretical Geology.
Lyell's Elements of Geology, and
Principles of Geology.
Guyot's Earth and Man.

For Local Information.

Hitchcock's Geology of Massachusetts. Also,
The Geological Reports published by the different States.
Lyell's Travels in North America.

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M. to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

Professor Gray will give special practical instruction to Scientific Students, attending his Course of Lectures, from the first of April to the close of the term, in classes of not more than three each.

Text-Books.

Gray's Botanical Text-Book, or
Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

Special instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. Wyman.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.
Carpenter's General and Comparative Physiology, 4th ed.
Wagner's Comparative Anatomy of Vertebrated Animals.
Rymer Jones's Outlines of the Animal Kingdom.
Kirke and Paget's Hand-Book of Physiology.
Agassiz's Lectures on Comparative Embryology.
Owen's Lectures on Comparative Anatomy.
Müller's Physiology.
Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will receive, during the Second Term, Special Students to the course of instruction in Mineralogy at his Laboratory.

Text-Book. Dana's Mineralogy.

The following courses of Lectures delivered to Undergraduates will be open without charge to members of the Scientific School.

A course on *Chemistry*, by Professor COOKE.

A course on *Systematic Botany according to the Natural System*, by Professor GRAY.

A course on *Physics*, by Professor LOVERING.

A course on *Human Anatomy and Physiology*, by Professor WYMAN.

The formation of a Museum of Natural History, on an extensive scale, has been commenced, under the superintendence of the Professors in the several Departments.

The Anatomical Museum, the Botanic Garden, the Observatory, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction six days in the week, per Term of twenty weeks, *fifty dollars*. For Laboratory apparatus and supplies, *fifty dollars*. For one half or any less fraction of a Term, two thirds of the above sums.

The Special Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction six days in the week, *fifty dollars* per Term. For three days in the week, two thirds, and for one day, one third, of the above sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of Botany, for instruction two lessons in a week, from April 1st to the end of the Term, *fifteen dollars*. For instruction six days in the week, *forty-five dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the School, and by members of any of the Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. They may also study any one of the foreign languages taught in the University, on payment of a fee of *five dollars* per Term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 66.

For further information concerning the School, application may be made to Professor E. N. Horsford, Dean of the Faculty.

OBJECTS AND COURSE OF INSTRUCTION.

The objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical surveys, in Meteorological and Magnetical investigations, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. George P. Bond, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

Herschel's Outlines of Astronomy.
Loomis's Practical Astronomy.
Delambre's Astronomie Théorique et Pratique.
Bowditch's Practical Navigator and Tables.
Baily's Astronomical Tables and Formulæ.
Lee's Tables and Formulæ. 2d ed.
Treatise on Mathematical Instruments, by F. W. Simms. Alexander's Edition.
Mason's Supplement to Olmsted's Astronomy.
Bowditch on the Computation of the Orbit of a Planet or Comet.
Sawitsch. Abriss der Practischen Astronomie.
Brünnow. Sphärische Astronomie.
History of Physical Astronomy, by Robert Grant.

The fees for instruction may be agreed upon with the instructor, but shall not exceed *fifty dollars* per Term.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during four months. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the winter course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures.

SURGERY. There are three Lectures each week during the winter term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instru-

ments. Students have an opportunity of seeing surgical operations, and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the summer term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the lecture term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the summer term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the summer term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each medicine and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are

exhibited to the students. During the summer session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. The relations of Chemistry to medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests employed for their detection, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its application to diagnosis. The Lectures are fully illustrated by experiment.

The following *Tables* exhibit the course of study proposed by the Instructors for the ensuing year, and the text-books used in the various departments.

Students are at liberty to vary from this plan.

FEES.

THE fee for matriculation is $ 3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the winter courses of Lectures.

The fee for instruction during the long term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $ 100.

The fees for the winter courses of Lectures amount in all to $ 80, which are required to be paid when the tickets are taken.

The fee for graduation is $ 20, which is deposited with the Dean when application is made to him for examination.

A fee of $ 5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the summer course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a summer course of instruction involves no change in the amount or character of the winter courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the winter courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the *Senatus Academicus*.

Those candidates who have at the spring examination received from the *Senatus Academicus* the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

An Annual Prize is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

Committee for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary;* Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

MUSEUM OF COMPARATIVE ZOÖLOGY.

FACULTY.

CORNELIUS C. FELTON, LL.D., *President.*
LOUIS AGASSIZ, LL.D., *Curator of the Museum.*
JACOB BIGELOW, M.D., LL.D.
OLIVER WENDELL HOLMES, M.D.
JEFFRIES WYMAN, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and Public; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 14,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The Public or COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library. The total number of books is about 92,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

☞ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	92,000
Medical "	2,000
Law "	14,000
Theological Library	13,000
Phillips Astronomical Library	1,300
Society Libraries of the Students	15,700
Total,	138,000

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books: * —

LATIN DEPARTMENT.

The whole of Virgil,
The whole of Cæsar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.

Felton's Greek Reader, or the whole of the Anabasis of Xenophon and the first three books of the Iliad (omitting the Catalogue of Ships in the second book),

Sophocles's Greek Grammar, or Crosby's, or Hadley's, including Prosody,

And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

Davies's, Chase's, or Eaton's Arithmetic,

Euler's Algebra, or Davies's First Lessons in Algebra, to "The Extraction of the Square Root," or Sherwin's Common School Algebra,

And "An Introduction to Geometry and the Science of Form, prepared from the most approved Prussian Text-Books," as far as the Seventh Section, or Hill's "First Lessons in Geometry."

HISTORICAL DEPARTMENT.

Mitchell's Ancient and Modern Geography.

Worcester's Elements of History, — the Ancient History only.

[After 1861, Smith's Smaller History of Greece, or Sewell's History of Greece will be substituted for so much of Worcester's History as relates to Greece.]

---

* Equivalents for the prescribed text-books, if *real* equivalents, are accepted.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge. If they have more time than is requisite for this purpose, instructors are desired and advised, for obvious reasons, not to anticipate the books read in College, but to direct the attention of their pupils to other authors.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to College, whether to the Freshman Class or to advanced standing, must in the first place be examined for admission to the Freshman Class.

The regular examination for the Freshman and the Sophomore Class will take place on the Monday and Tuesday of Commencement week (July 15th and 16th, 1861), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.

The continuation of the examination of those who offer themselves for the Junior and the Senior Class will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and the Sophomore Class, at the beginning of the First Term, on Thursday and Friday, August 29th and 30th, 1861, attendance on both days being required. On the next Monday, September 2d, the examination of candidates offered for the Junior and the Senior Class, including those offered on Commencement week, will be continued and concluded. The candidates will assemble on Thursday, August 29th, in No. 16 University Hall, at 8 o'clock, A. M.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be intended that, if admitted, he shall immediately join his Class.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to such admission to advanced stand-

ing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

2. In all the *required* studies, and, if after the commencement of the Junior year, in one of the *elective* studies, already gone over by the Class for which he is offered.

He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

COURSE OF INSTRUCTION.

FRESHMAN CLASS.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

Senior Class.

Modern Literature, — Professor Lowell, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — Professor Wyman, Tuesday and Thursday, at 10 o'clock, in Boylston Hall.

Geology, — Professor Agassiz, to the Lawrence Scientific School, Tuesday and Thursday, at 12 o'clock, in Boylston Hall.

Mathematics, — Professor Peirce, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

Electrostatics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Greek Literature, — President Felton, Thursday, at 12 o'clock, in No. 16 University Hall.

Electrostatics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Sophomore Class.

Chemistry, — Professor Cooke, Friday, at 12 o'clock, in Boylston Hall.

Freshman Class.

College Studies, — President Felton, Monday, at 10 o'clock, in the Old Chapel.

SECOND TERM.

Senior Class.

Philosophy, — Professor Bowen; — or *History*, — Professor Torrey, Friday, at 5 o'clock, in Harvard Hall.

Modern Literature, — Professor Lowell, Thursday, at 4 o'clock, in Harvard Hall.

Electrodynamics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Zoölogy, — Professor Agassiz, to the Lawrence Scientific School, Tuesday and Thursday, at 12 o'clock, in the Zoölogical Museum.

Junior Class.

Electrodynamics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — Professor Gray, Tuesday and Thursday, at 10 o'clock, in Holden Chapel.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by the Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, German, French, and Spanish are elective studies, and in the Senior year Latin, Greek, and Italian are added to these electives; the rest are required.

In the last two years of the College course each Student must take one of the elective studies assigned to his Class; he is also allowed to take another as an *extra*. The elective study, when chosen, becomes a required study for that year to those who choose it, and credit is given for it on the scale of rank, as in the case of required studies; but no credit is given for *extra* studies.

EXAMINATIONS.

EACH Class is examined annually, and in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. The course will extend to the higher branches of part-singing.

Separate classes for graduates will be formed if desired.

* Lectures.

† In *two* divisions.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. The fee for attendance and instruction is two dollars a Term.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, ...	$75.00
Rent and care of Room, in the College Buildings, . .	20.00
Board for 40 weeks at $3.50 per week, ...	140.00
Text-books (average), ...	12.00
Special Repairs, &c., ...	from 1 to 2.00
	$249.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $8.00 per cord for wood, and $6.00 per ton for coal. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $2.75 to $4.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-TWO Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars: —

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

And Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the PRESIDENT'S SCHOLARSHIPS, four to be assigned to each Class.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen new Scholarships will be bestowed by the President and Faculty. Applications from persons who wish to be considered as candidates will be received on or before the 1st day of May of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments to the others, being guided principally by the scale of rank for the year. The nominations and appointments shall be made at the end of each Academic Year, and as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the

Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the beneficiary funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the 15th day of May*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised a few years since by subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging

from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. It has been in operation about nineteen years. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

Besides the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

Meritorious Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, and three in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

Recent Charges against the Character of William Penn.
The Limits of Religious Thought.
Importance of the Study of the Roman Law in the United States.

FOR MEMBERS OF THE SENIOR CLASS.

Fénelon as a Critic, a Theologian, and a Metaphysician.
Ancient Navigation.
Modern Cosmogonies.

FOR MEMBERS OF THE JUNIOR CLASS.

Literary Forgeries.
Gladstone's Views of Homer.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

To HENRY WALKER FROST, *of the Law School.*

COMMITTEE. — The Rev. Rufus Ellis, the Hon. Charles F. Adams, and William Bentley Fowle, Esq.

Senior Class.

To JAMES CHAMPLIN FERNALD, *a First Prize.*
" WILLIAM GARDNER COLBURN, *a Second Prize.*

COMMITTEE. — The Hon. Waldo Flint, W. R. P. Washburn, Esq., and the Rev. Samuel K. Lothrop, D.D.

Junior Class.

To GEORGE HART MUMFORD, *a First Prize.*
" JAMES KENT STONE, *a Second Prize.*

COMMITTEE. — The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and the Rev. John Pryor, D.D.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *first day of May*, in sealed envelopes, accompanied by sealed letters containing the authors' names.

The following are the subjects of the Compositions for the present Academical Year.

For Latin Versification.

Coleridge's *Garden of Boccaccio*, beginning with the verse, "Thanks, gentle artist," to be translated into Latin Hexameters.

For Greek Prose.

The Character and Death of Alcibiades, in Grote's History of Greece, Vol. VIII. (the last four paragraphs in Chap. 66); to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year:—

For Latin Versification.

To John Prentiss Hopkinson, *of the Junior Class.*

For Greek Prose.

To Henry George Spaulding, *of the Senior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 20th, 1860.

The two First Prizes.

To THOMAS BAYLEY FOX, *of the Graduating Class.*
" JAMES VILA BLAKE, *of the Junior Class.*

The three Second Prizes.

To EDWARD AUGUSTUS CROWNINSHIELD, *of the Senior Class.*
" WESLEY CALEB SAWYER, *of the Senior Class.*
" WILLIAM FRANKLIN SNOW, *of the Senior Class.*

V. HARVARD MATHEMATICAL PRIZES.

With a view to promote the study of Mathematics in the University, the Hon. John C. Gray has given five hundred dollars, to be divided into two prizes of equal value, which are to be awarded to the two members of the Class to be graduated in 1861, who shall be found, after a special and thorough examination in the Second Term of their Senior year, to have made the greatest proficiency in the study of Pure Mathematics. No prize, however, shall be assigned unless it shall appear to the examiners that the performances of the competitors absolutely merit it.

The same gentleman has also given five hundred dollars more, to be divided into two prizes of equal value, which are to be awarded in the same way, and on the same conditions, to members of the Class to be graduated in 1862.

The prizes for the year 1860 were assigned, after a special and thorough examination,

To Calvin Milton Woodward, *of the Senior Class.*
" Charles Appleton Phillips, *of the Senior Class.*

Committee, — acting in conjunction with the Mathematical Department, — John B. Henck, Esq., Dr. Benjamin A. Gould, John D. Runkle, Esq., and Chauncey Wright, Esq.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College: —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

No house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations: —

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the

Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

6. No Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent., as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

But inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those Students only shall be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), or Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $2.75 to $4 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows: —

FIRST YEAR.

Commencing in the years 1860, 1862, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*
Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*
University Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*
Dane Professor. *Kent's Commentaries, Evidence, Contracts.*
University Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1861, 1863, &c.

First Term.

Royall Professor. *Bailments, Corporations, Equity Jurisprudence.*

Dane Professor. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

University Professor. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

Second Term.

Royall Professor. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

Dane Professor. *Kent and Blackstone, Bills and Notes, Partnership.*

University Professor. *Law of Real Property, Sales, Conflict of Laws.*

A Moot Court is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The Law Library consists of about 15,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.00 to $4.00 per week,	from $60	to $80
Room-rent, including care of room, but not making fires,	16	to 60
Furniture (if the Student does not furnish his room),	8	to 16
Washing,	7	to 15
Fuel, for the First or Winter Term, from August to January,	12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.		
Servant (if one is employed) to make fires, &c.,	5	to 10
	$108	to $206

If Students mess together, or enter into some similar and economical arrangement, board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

Of the doctrine of Subrogation, in Courts of Equity.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of Covenants for Title, running with the land.

The following prizes were assigned for the last year: —

For Dissertations, "Of the Estate of Mortgagor and that of Mortgagee in Mortgaged Real Property."

To CHARLES FOLSOM WALCOTT, of Salem, Mass., the First Prize of *sixty dollars*.

To THOMAS KINNICUTT, of Worcester, Mass., the Second Prize of *fifty dollars*.

For Dissertations, "How far the Security which Ship-owners have, in the Goods they carry, for the Freight Money, is in the Nature of a Common Law Lien or a Privilegium of the Civil Law."

To ROBERT DICKSON SMITH, of Cambridge, Mass., the First Prize of *fifty dollars*.

To ALFRED LEWIS EDWARDS, of New York, N. Y., the Second Prize of *forty dollars*.

Committee. — HON. IRA PERLEY, of New Hampshire.
HON. EDWARD KENT, of Maine.
WILLIAM R. P. WASHBURN, ESQ., of Massachusetts.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, except in extraordinary cases.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong. They are expected statedly to attend religious worship, at such place as their parents or guardians may direct.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required.

I. CHEMISTRY.

Professor Horsford will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M. till 5 o'clock, P. M.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches;

Pharmaceutical Preparations for the Laboratory and Apothecary, and the methods for the determination of the value of drugs generally;

Mineral assays, Metallurgy, analysis of soils and ashes, examination for poisons, manufacture of manures, and the various determinations required in the practice of medicine;

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

In addition to the practical instruction in Chemistry as an art, in which each Student is necessarily a class by himself, there is a systematic daily exercise, on the blackboard, in the solution and explanation of chemical problems.

A knowledge of Algebra, Geometry, and Trigonometry, and an acquaintance with Stöckhardt's Elements of Chemistry, or its equivalent, are required for admission.

Text-Books and Works for Reading and Reference.

Will's Outlines of Chemical Analysis.
Fresenius's Quantitative Analysis.
Regnault's Elements of Chemistry.
Gmelin's Hand-Book of Chemistry.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.
De la Beche's Geological Manual, Geological Observer, and Researches in Theoretical Geology.
Lyell's Elements of Geology, and Principles of Geology.
Guyot's Earth and Man.

For Local Information.

Hitchcock's Geology of Massachusetts. Also,
The Geological Reports published by the different States.
Lyell's Travels in North America.

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M. to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

PROFESSOR GRAY will give special practical instruction to Scientific Students, attending his Course of Lectures, from the first of April to the close of the term, in classes of not more than three each.

Text-Books.

Gray's Botanical Text-Book, or
Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.
Carpenter's General and Comparative Physiology, 4th ed.
Wagner's Comparative Anatomy of Vertebrated Animals.
Rymer Jones's Outlines of the Animal Kingdom.
Kirke and Paget's Hand-Book of Physiology.
Agassiz's Lectures on Comparative Embryology.
Owen's Lectures on Comparative Anatomy.
Müller's Physiology.
Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will receive, during the Second Term, Special Students to the course of instruction in Mineralogy at his Laboratory.

Text-Book. Dana's Mineralogy.

The following courses of Lectures delivered to Undergraduates will be open without charge to members of the Scientific School.

A course on *Chemistry*, by Professor COOKE.

A course on *Systematic Botany according to the Natural System*, by Professor GRAY.

A course on *Physics*, by Professor LOVERING.

A course on *Human Anatomy and Physiology*, by Professor WYMAN.

The formation of a Museum of Natural History, on an extensive scale, has been commenced, under the superintendence of the Professors in the several Departments.

The Anatomical Museum, the Botanic Garden, the Observatory, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction six days in the week, per Term of twenty weeks, *fifty dollars*. For Laboratory apparatus and supplies, *fifty dollars*. For one half or any less fraction of a Term, two thirds of the above sums.

The Special Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction six days in the week, *fifty dollars* per Term. For three days in the week, two thirds, and for one day, one third, of the above sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of Botany, for instruction two lessons in a week, from April 1st to the end of the Term, *fifteen dollars*. For instruction six days in the week, *forty-five dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the School, and by members of any of the Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. They may also study any one of the foreign languages taught in the University, on payment of a fee of *five dollars* per Term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 65.

For further information concerning the School, application may be made to Professor E. N. Horsford, Dean of the Faculty.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical surveys, in Meteorological and Magnetical investigations, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

Herschel's Outlines of Astronomy.
Loomis's Practical Astronomy.
Delambre's Astronomie Théorique et Pratique.
Bowditch's Practical Navigator and Tables.
Baily's Astronomical Tables and Formulæ.
Lee's Tables and Formulæ. 2d ed.

Mason's Supplement to Olmsted's Astronomy.
Bowditch on the Computation of the Orbit of a Planet or Comet.
Sawitsch. Abriss der Practischen Astronomie.
Brünnow. Sphärische Astronomie.
History of Physical Astronomy, by Robert Grant.

The fees for instruction may be agreed upon with the instructor, but shall not exceed *fifty dollars* per Term.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during four months. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the winter course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures.

SURGERY. There are three Lectures each week during the winter term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instru-

ments. Students have an opportunity of seeing surgical operations, and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the summer term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the lecture term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the summer term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the summer term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MEDICA. The physiological and therapeutical action of ·ularly described in these Lectures. Specimens of each f the various pharmaceutical preparations to which it is f its most important combinations and reactions, are

exhibited to the students. During the summer session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. The relations of Chemistry to medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests employed for their detection, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its application to diagnosis. The Lectures are fully illustrated by experiment.

The following *Tables* exhibit the course of study proposed by the Instructors for the ensuing year, and the text-books used in the various departments.

Students are at liberty to vary from this plan.

FEES.

THE fee for matriculation is $ 3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the winter courses of Lectures.

The fee for instruction during the long term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $ 100.

The fees for the winter courses of Lectures amount in all to $ 80, which are required to be paid when the tickets are taken.

The fee for graduation is $ 20, which is deposited with the Dean when application is made to him for examination.

A fee of $ 5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the summer course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a summer course of instruction involves no change in the amount or character of the winter courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the winter courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the *Senatus Academicus*.

Those candidates who have at the spring examination received from the *Senatus Academicus* the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary;* Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and Public; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 14,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The Public or COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library. The total number of books is about 94,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

☞ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	94,000
Medical "	2,000
Law "	14,000
Theological Library	13,000
Phillips Astronomical Library	1,300
Society Libraries of the Students	15,700

4. *Religious Instruction.* Hopkins on the Evidences of Christianity.
5. *Elocution.* Lessons in Orthoepy.

SECOND TERM.

1. *Greek.* Felton's Greek Historians. — Lysias. — Greek Antiquities. — Goodwin's Greek Moods and Tenses. — Exercises in writing Greek.
2. *Latin.* Horace, Odes and Epodes. — Zumpt's Grammar. — Ramsay's Elementary Manual of Roman Antiquities. — Exercises in writing Latin.
3. *Mathematics.* Peirce's Algebra, Chapters V., VI., VII., IX. — Exponential Equations and Logarithms. — Peirce's Trigonometry (Plane).
4. *History.* Liddell's History of Rome.
5. *Elocution.* Lessons in Expression.

SOPHOMORE CLASS.

FIRST TERM.

1. *Grammar.* Vernon's Anglo-Saxon Guide. — Themes.
2. *Mathematics.* Peirce's Trigonometry (Navigation and Surveying, Spherical Trigonometry). — J. M. Peirce's Analytic Geometry, to Chapter VI.
3. *Greek.* Plato's Apology and Crito. — Thucydides. — Exercises in writing Greek.

4. *Latin.* Cicero against Verres. — The Epistles of Horace. — Beck's Syntax, and Zumpt's Grammar. — Exercises in writing Latin.
5. *Elocution.* Lessons in Orthoepy and Expression.
6. *Chemistry.* Stöckhardt's Principles of Chemistry. — Lectures.
7. *French.* Fasquelle's Grammar. — Le Grand Père. — Arnoult's Pronouncing French Reader.

SECOND TERM.

1. *Rhetoric.* Themes. — Readings in English Literature.
2. *Mathematics.* J. M. Peirce's Analytic Geometry, finished. — Peirce's Algebra, Chapter IV.

8. *Modern Literature.* Lectures.

The Hebrew Language is taught (to those who desire to learn it) by PROFESSOR NOYES.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

Senior Class.*

Modern Literature, — Professor Lowell, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — Professor Wyman, Tuesday and Thursday, at 12 o'clock, in Boylston Hall.

Mathematics, — Professor Peirce, Tuesday and Thursday, at 12 o'clock, in Harvard Hall. This course begins after Professor Wyman's ends.

Mechanics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Greek Language and Literature, — President Felton, or Professor Goodwin, Thursday, at 12 o'clock, in No. 16 University Hall.

Mechanics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Sophomore Class.

Chemistry, — Professor Cooke, Friday, at 12 o'clock, in Boylston Hall.

Freshman Class.

College Studies, — President Felton, Friday, at 10 o'clock, in the Old Chapel.

SECOND TERM.

Senior Class.

Philosophy, — Professor Bowen; — or *History,* — Professor Torrey, Friday, at 5 o'clock, in Harvard Hall.

Modern Literature, — Professor Lowell, Thursday, at 4 o'clock, in Harvard Hall.

Mechanics and Optics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Mechanics and Optics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — Professor Gray, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

---

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 3 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Chemical Technology by Professor Horsford, in the Lawrence Scientific Hall, 12 to 1 on Thursday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by the Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, German, French, and Spanish are elective studies, and in the Senior year Latin, Greek, and Italian are added to these electives; the rest are required.

In the last two years of the College course each Student must take one of the elective studies assigned to his Class; he is also allowed to take another as an *extra*. The elective study, when chosen, becomes a required study for that year to those who choose it, and credit is given for it on the scale of rank, as in the case of required studies; but no credit is given for *extra* studies.

EXAMINATIONS.

EACH Class is examined annually, and in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. The course will extend to the higher branches of part-singing.

Separate classes for graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. The fee for attendance and instruction is two dollars a Term.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows: —

Instruction, Library, Lecture-rooms, ...	$75.00
Rent and care of Room, in the College Buildings, ...	20.00
Board for 40 weeks at $3.50 per week, ...	140.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $8.00 per cord for wood, and $5.50 per ton for coal. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $2.75 to $4.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-SIX Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars:—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the PRESIDENT'S SCHOLARSHIPS, four to be assigned to each Class.

And four, with an income of two hundred and fifty dollars each, called the TOWNSEND SCHOLARSHIPS, from the legacy of the late Miss Townsend.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen new Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received on or before the 1st day of June of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, and as soon as the scales of rank for the year

can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised a few years since by subscription among the friends of the University, the

interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. It has been in operation about nineteen years. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules: —

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

Besides the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

Meritorious Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, and three in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

Recent Progress of the Science of Comparative Philology.
The History of the United States as influenced by their Physical Geography.
The Services of Modern Missionaries to Science and Knowledge.

FOR MEMBERS OF THE SENIOR CLASS.

The Issues involved in the great Civil Wars recorded in History.
Pope Gregory the Seventh.
Recent Discussions of the Character of Lord Bacon.

FOR MEMBERS OF THE JUNIOR CLASS.

The Intellectual and Rhetorical Peculiarities of Virgil's Poetry.
Reforms in the Turkish Empire.
The Germanic Element in Civilization.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

To JOHN CODMAN ROPES, *of the Law School.*

COMMITTEE. — The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To WESLEY CALEB SAWYER, *a First Prize.*
" FRANCIS WARREN HACKETT, *a Second Prize.*

COMMITTEE. — The Hon. Waldo Flint, W. R. P. Washburn, Esq., and the Rev. Samuel K. Lothrop, D.D.

Junior Class.

To EDWARD DORR MCCARTHY, *a First Prize.*
" WILLIAM TUFTS BRIGHAM, *a Second Prize.*

COMMITTEE. — The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and the Rev. John Pryor, D.D.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *first day of May*, in sealed envelopes, accompanied by sealed letters containing the authors' names.

The following are the subjects of the Compositions for the present Academical Year.

For Latin Versification.

Hood's *Ode to Melancholy*, omitting from v. 35 to v. 79, inclusive, to be translated into Latin Hexameters.

For Greek Prose.

Alaric's Invasion of Greece, from Gibbon's Roman Empire, Chap. XXX., second paragraph, (beginning, "The character of the civil and military officers," and ending, "the calamities of Greece"); — to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year: —

For Latin Versification.

To Mayo Williamson Hazeltine, *of the Junior Class.*

For Greek Prose.

Divided between { Oliver Wendell Holmes, *of the Senior Class.* / John Hoag Dillingham, *of the Junior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 18th, 1861.

The two First Prizes.

To JOHN PATRICK BROWN, *of the Graduating Class.*
" EDWARD DORR MCCARTHY, *of the Senior Class.*

The three Second Prizes.

To MINOT GARDNER GAGE, *of the Graduating Class.*
" JAMES EDWARD WRIGHT, *of the Graduating Class.*
" BENJAMIN THOMPSON FROTHINGHAM, *of the Junior Class.*

V. HARVARD MATHEMATICAL PRIZES.

WITH a view to promote the study of Mathematics in the University, the Hon. John C. Gray has given five hundred dollars, to be divided into two prizes of equal value, which are to be awarded to the two members of the Class to be graduated in 1862, who shall be found, after a special and thorough examination in the Second Term of their Senior year, to have made the greatest proficiency in the study of Pure Mathematics. No prize, however, shall be assigned unless it shall appear to the examiners that the performances of the competitors absolutely merit it.

One prize for the year 1861 was assigned, after a special and thorough examination by the Department,

To LEONARD CASE ALDEN, *of the Senior Class.*

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

Extract from the Statutes of the University.

"Chapter XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

Regulations relative to Lodging and Boarding Houses for Undergraduates.

At a meeting of the Faculty of Harvard College: —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

No house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations: —

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the

Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

6. No Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

But inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those Students only shall be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $2.75 to $4 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing, —

The Hebrew Language;

The Principles of Criticism and Interpretation;

The Criticism and Interpretation of the Scriptures;

Natural Religion, and the Evidences of Revealed Religion;

Systematic Theology, Christian Ethics, and Practical Divinity;

Church History, and Church Polity;

The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

It is considered of great importance, that those who enter the School should be present at the beginning of the First Term.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows: —

FIRST YEAR.

Commencing in the years 1860, 1862, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*
Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*
University Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*
Dane Professor. *Kent's Commentaries, Evidence, Contracts.*
University Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1861, 1863, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

UNIVERSITY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

UNIVERSITY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 15,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $8.00 to $4.00 per week,	from	$60	to $80
Room-rent, including care of room, but not making fires,		16	to 60
Furniture (if the Student does not furnish his room),		8	to 16
Washing,		7	to 15
Fuel, for the First or Winter Term, from August to January,		12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.			
Servant (if one is employed) to make fires, &c.,		5	to 10
		$108	to $206

If Students mess together, or enter into some similar and economical arrangement, board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year: —

FOR STUDENTS THREE TERMS IN THE SCHOOL.

Of the Rules and Reasons for distinguishing Property into Real and Personal.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of the Recent Changes in the Laws relative to the Property of Married Women.

The following prizes were assigned for the last year: —

For Dissertations, "Of the doctrine of Subrogation, in Courts of Equity."

To JAMES WESLEY STEPHENSON, of Cambridge, Mass., the First Prize of *sixty dollars.*

To JAMES MONROE DONNELL, of Wells, Me., the Second Prize of *fifty dollars.*

For Dissertations, "Of Covenants for Title running with the land."

To THOMAS ALBERT HENDERSON, of Dover, N. H., the First Prize of *fifty dollars.*

To JOHN WOODBRIDGE ODLIN, of Concord, N. H., the Second Prize of *forty dollars.*

Committee. — HON. SAMUEL AMES, of Rhode Island.
SIDNEY BARTLETT, ESQ., of Massachusetts.
HON. GEORGE P. SANGER, of Massachusetts.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, except in extraordinary cases.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong. They are expected statedly to attend religious worship, at such place as their parents or guardians may direct.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required.

I. CHEMISTRY.

THE regular course of instruction in this Department will include —

Recitations in Experimental Chemistry, Qualitative Analysis, Chemical Physics, and the Applications of Chemistry to the Arts.

The Academic Lectures on Chemistry, Physics, Botany, and Anatomy.

Practical instruction in the Laboratory in the various branches of Chemical Analysis, Manufacturing Chemistry, Metallurgy, and Pharmacy.

The Laboratory is open from 9 o'clock, A. M. till 1 o'clock, P. M., and from 2 o'clock, P. M. till 5 o'clock, P. M.; it is closed on Saturday afternoon.

Every Student is expected to give his attendance at the Laboratory during Laboratory hours, unless otherwise occupied by recitations or lectures.

Students who wish to learn so much Chemistry as may be applied in the profession of Medicine, in Pharmacy, or in any particular branch of Manufacturing Chemistry, will attend only those recitations and lectures of the regular course which are applicable to their special wants.

A knowledge of Algebra, Geometry, and Trigonometry (*including Logarithms*), and an acquaintance with Stöckhardt's Elements of Chemistry, or its equivalent, are necessary for the advantageous pursuit of the studies of this Department.

Text-Books.

Galloway's Manual of Qualitative Analysis.
Will's Outlines of Chemical Analysis.
Fresenius's Quantitative Analysis.
Cooke's Chemical Physics.
Regnault's Elements of Chemistry.
Bowman's Medical Chemistry.

Books of Reference.

Gmelin's Hand-Book of Chemistry.
Pelouze and Frémy's Traité de Chimie Générale.
Graham-Otto's Ausführliches Lehrbuch der Chemie.
Muspratt's Chemistry applied to Arts and Manufactures.
Lehmann's Physiological Chemistry.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.
De la Beche's Geological Manual, Geological Observer, and Researches in Theoretical Geology.
Lyell's Elements of Geology, and Principles of Geology.
Guyot's Earth and Man.

For Local Information.

Hitchcock's Geology of Massachusetts. Also,
The Geological Reports published by the different States.
Lyell's Travels in North America.

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M. to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

PROFESSOR GRAY will give special practical instruction to Scientific Students, attending his Course of Lectures, from the first of April to the close of the term, in classes of not more than three each.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.
Carpenter's General and Comparative Physiology, 4th ed.
Wagner's Comparative Anatomy of Vertebrated Animals.
Rymer Jones's Outlines of the Animal Kingdom.
Kirke and Paget's Hand-Book of Physiology.
Agassiz's Lectures on Comparative Embryology.
Owen's Lectures on Comparative Anatomy.
Müller's Physiology.
Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 34.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction six days in the week, per Term of twenty weeks, *fifty dollars;* for Laboratory apparatus and supplies, *fifty dollars;* for one half or any less fraction of a Term, two thirds of the above sums.

The Special Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction six days in the week, *fifty dollars* per Term; for three days in the week, two thirds, and for one day, one third, of the above sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

In the Department of Botany, for instruction two lessons in a week, from April 1st to the end of the Term, the fee will be *fifteen dollars;* for instruction six days in the week, *forty-five dollars.*

In the Department of Mineralogy, for instruction three hours a week (see p. 78) during the Second Term, *fifteen dollars.*

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course.* Special Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course,* and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 65.

For further information concerning the School, application may be made to Professor E. N. Horsford, Dean of the Faculty.

ASTRONOMICAL OBSERVATORY.

FACULTY.

CORNELIUS C. FELTON, LL.D., *President.*
GEORGE P. BOND, A.M.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, in Meteorological and Magnetical Investigations, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

Herschel's Outlines of Astronomy.
Loomis's Practical Astronomy.
Delambre's Astronomie Théorique et Pratique.
Bowditch's Practical Navigator and Tables.
Baily's Astronomical Tables and Formulæ.

Lee's Tables and Formulæ. 2d ed.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the winter course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the winter term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instru-

ments. Students have an opportunity of seeing surgical operations, and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the summer term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the lecture term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the summer term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the summer term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are

exhibited to the students. During the summer session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the winter course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During three months of the Summer Term recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry.

The following *Tables* exhibit the course of study proposed by the Instructors for the ensuing year, and the text-books used in the various departments.

Students are at liberty to vary from this plan.

FEES.

THE fee for matriculation is $ 3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the winter courses of Lectures.

The fee for instruction during the long term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $ 100.

The fees for the winter courses of Lectures amount in all to $ 80, which are required to be paid when the tickets are taken.

The fee for graduation is $ 20, which is deposited with the Dean when application is made to him for examination.

A fee of $ 5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the summer course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a summer course of instruction involves no change in the amount or character of the winter courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the winter courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the *Senatus Academicus*.

Those candidates who have at the spring examination received from the *Senatus Academicus* the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

An Annual Prize is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

Committee for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary;* Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

JEFFRIES WYMAN, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and Public; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 14,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The Public or COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library. The total number of books is about 97,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

☞ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	97,000
Medical "	2,000
Law "	14,000
Theological Library	13,000
Lawrence Scientific Library	5,000
Phillips Astronomical Library	1,400
Society Libraries of the Students	16,600
Total,	149,000

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:

FIRST YEAR.

Commencing in the years 1860, 1862, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*
Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*
University Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*
Dane Professor. *Kent's Commentaries, Evidence, Contracts.*
University Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1861, 1863, &c.

First Term.

Royall Professor. *Bailments, Corporations, Equity Jurisprudence.*

Dane Professor. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

University Professor. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

Second Term.

Royall Professor. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

Dane Professor. *Kent and Blackstone, Bills and Notes, Partnership.*

University Professor. *Law of Real Property, Sales, Conflict of Laws.*

A Moot Court is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The Law Library consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year: —

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Influence of the Roman Law in the Formation and Determination of the Rules and Principles of the English and American Law.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of the Rights of Property or Easement in Subterranean Water.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.00 to $4.00 per week,	from $60 to $80
Room-rent, including care of room, but not making fires,	16 to 60
Furniture (if the Student does not furnish his room),	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from August to January,	12 to 25
" for the Second or Summer Term, from February to July, from $6 to $10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	$108 to $206

Students may enter into economical arrangements, by which board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

RULES AND STATUTES OF THE PROFESSORSHIPS OF LAW IN THE UNIVERSITY AT CAMBRIDGE.

ROYALL PROFESSORSHIP OF LAW.

The fund appropriated to this Professorship accrues from the bequests of Isaac Royall, Esq., made in his will, dated May 26, 1773, and in the codicil to his will, dated November 30, 1779. He devised and bequeathed to the Corporation of Harvard College certain lands, "to sell the same, and put the money out to interest, the income to be appropriated towards endowing a Professor of Laws, or a Professor of Physic and Anatomy, whichever they shall judge to be most for the benefit of said College."

In the autumn of 1815, it was determined to establish a Professorship of Law agreeably to the foregoing will, and in the spring following the statutes and rules were enacted, and the Professor inducted.

Statutes of the Professorship of Law in Harvard University.

1. For the present, and so long as the principal support of the Professor shall be derived from the fund bequeathed by the late Hon. Isaac Royall, Esquire, the Professor shall be entitled "Royall Professor of Law"; but the Corporation reserve to themselves the right, with the assent of the Overseers, to change the title of said Professor, whenever and as soon as any such additions shall be made to the aforesaid fund, as to render the sum bequeathed by the aforesaid Royall the smaller part of the whole foundation, or for any other good and sufficient reason not repugnant to the will of the said Royall.

2. The said Professor of Law shall be elected in the same manner in which other officers of the College are chosen, and shall hold his office during good behavior; but the Corporation, with the assent of the

Overseers, may at any time remove him for any cause which they may deem just and sufficient.

3. The said Professor shall enjoy all the privileges and the rank which appertain of right to the other Professors in the College; [but he shall not be obliged to reside in the town of Cambridge,] * nor shall he be called upon to take any part in the immediate government of the College, unless required so to do by the Corporation and Overseers; he shall, however, when requested by the Corporation, give his opinion on any questions of law immediately affecting the College, provided the delivery of such opinion shall not interfere with the said Professor's other duties.

4. The said Professor shall enjoy all the authority while delivering his lectures to the students, as to the preservation of order and decorum, and the regulation of the deportment of the students, which other Professors are entitled to exercise; and for any indecorum during his exercises, or insult offered to him, the students shall be subject to such penalties as are provided in like cases as to the other officers of the College; which penalties it shall be the duty of the immediate government, after due examination, to apply.

5. The said Professor shall, before he enters on the duties of his office, subscribe these statutes, as well as the usual declaration prescribed in such cases to other Professors.

[6. The course of lectures shall be delivered in some of the College public rooms, and shall consist of not less than fifteen; and, until further order, the same shall be attended only by the Senior Class among the Undergraduates; but the officers of the College, including the Overseers and Corporation, together with all Resident Graduates, shall have a right to attend the said lectures gratis. It shall also be lawful for the said Professor to admit any other persons, not resident at the College, on such terms and conditions as shall to the said Professor seem proper; provided, that such arrangements be made, as to numbers and seats at the lectures, as may consist with the suitable accommodation of the members of the College who attend.] *

[7. It shall be the duty of the said Professor to exhibit, in a course of lectures, the theory of Law, in its most comprehensive sense; the principles and practical operation of the Constitution and government of the United States and of this Commonwealth; a history of the jurisprudence of this State under the Colonial and Provincial, as well as under the present government; an explanation of the principles of the common law of England, the mode of its introduction into this country, and the sources and reasons of its obligation therein; also its various modi-

fications by usage, judicial decision, and statute; and, generally, those topics connected with law as a science which will best lead the minds of the students to such inquiries and researches as will qualify them to become useful and distinguished supporters of our free systems of government, as well as able and honorable advocates of the rights of the citizens. And it shall be in the power of the Corporation, with the assent of the Overseers, to vary, modify, enlarge, or wholly change the above course, and to prescribe any other duties not inconsistent with the general principles on which such a Professorship is founded.] *

At a Meeting of the President and Fellows of Harvard College, May 14, 1817: —

Voted, That some counsellor, learned in the Law, be elected, to be denominated University Professor of Law, who shall reside in Cambridge, and open and keep a School for the instruction of graduates of this or any other University, and of such others as, according to the Rules of Admission as Attorneys, may be admitted after five years' study in the office of some counsellor.

2. That it shall be the duty of this officer, with the advice of the Royall Professor of Law, to prescribe a course of study, to examine and confer with the students upon the subjects of their studies, and to read lectures to them appropriate to the course of their studies and their advancement in the science; and generally to act the part of a tutor to them, in such manner as will best improve their minds and assist their acquisitions.

3. The compensation from this instruction is to be derived from the students; and a sum not exceeding one hundred dollars shall be paid by each one who shall attach himself to the School; but this sum shall be subject to be reduced hereafter by the Corporation, if, in their judgment, the emoluments of the School shall make such reduction reasonable and consistent with the interest of the establishment.

4. The students shall have access to the College Library, on such terms as the College government shall prescribe; and a complete Law Library shall be obtained for their use as soon as means for that purpose may be found.

5. The students shall be permitted to board in Commons on the same terms as other members of the College; and such accommodations shall be afforded them in respect to lodging-rooms as may consist with the urgent claims of the existing establishment.

[6. As an excitement to diligence and good conduct, a degree of Bachelor of Laws shall be instituted at the University, to be conferred

on such students as shall have remained at least eighteen months at the University School, and passed the residue of the novitiate in the office of some counsellor of the Supreme Court of the Commonwealth, or who shall have remained three years, or, if not graduates of any college, five years, in the School, provided the Professor having charge of the same shall continue to be a practitioner in the Supreme Judicial Court.] *

7. The students shall have the privilege of attending the lectures of the Royall Professor of Law free of expense, and shall have access to the other lectures of the University usually allowed to be attended by resident graduates, without charge, or for such reasonable compensation as the Corporation, with the assent of the Overseers, shall determine.

8. The Law Students shall give bonds for the payment of the College dues, including the charge of the Professor for instruction, which shall be inserted in the quarter bills, and collected by the College officer; and the sums received for instruction shall, when received, be paid over by the said officer to the Professor.

9. The Law Students shall be on the same footing, generally, in respect to privileges, duties, and observance of all College regulations, as by the laws pertain to Resident Graduates.

10. The University Professor of Law, after his election and before his induction, shall make and subscribe before the President and Fellows of the College a declaration similar to the declarations required of the other Professors.

DANE PROFESSORSHIP OF LAW.

BEVERLY, June 2, 1829.

To the President and Fellows of the Corporation of Harvard University.

GENTLEMEN: — As I have a long time wished to aid and promote the law branch in the said University, and now by the profits of my law work can conveniently do it, I proceed to lay the foundation of a Professorship of Law therein, and to provide for the appointment of a Professor, and to aid in his support, in the manner following, and submit the same to your consideration.

In the first place, it shall be his duty to prepare and deliver, and to revise for publication, a course of lectures on the five following branches of law and equity, equally in force in all parts of our federal republic, namely, the law of nature, the law of nations, commercial and maritime law, federal law, and federal equity, in such wide extent as the same branches now are, and from time to time shall be, administered in the

* Altered, see page 15.

courts of the United States; but in such compressed form as the Professor shall deem proper; and so to prepare, deliver, and revise lectures thereon, as often as the said Corporation shall think proper. But as the Corporation may, after one course of lectures shall have been prepared, delivered, and revised, on these branches, think it best to include in his lectures other branches of law and equity that shall, from time to time, be in force in Massachusetts, I authorize the said Corporation so to do; ever confiding in the discretion thereof to select the State branches the most important and the most national; that is, as much as may be, branches the same in other States in the Union as in this; — making lectures on this State law useful in more States than one, — law clearly distinguished from that State law which is in force and of use in a single State only.

2. I now appropriate ten thousand dollars, to be placed by me in the possession of the said Corporation, on or before the first day of September next, as a fund for ever, towards the support of the said Professor; all the income whereof, and of such other moneys and funds as I may hereafter add, shall be paid over annually, or semiannually, as the Corporation may direct, to the Professor for the time being, each year beginning on the first day of September.

3. In conformity to the Constitution of the United States, of Massachusetts, and of most of the other States, I declare that no religious test shall ever be required as a qualification of this Professorship; but each person who shall be appointed Professor shall, before entering on the duties of this office, make and subscribe a declaration in the words following: —

"I do solemnly declare that I will, to the best of my ability, perform the duties required of me by the statutes under which I am now appointed Professor of Law in Harvard University"; and that no oath or other declaration shall ever be required.

4. It is my object that a Professor shall always be appointed who shall be a counsellor at law of at least seven years' standing at the bar; and, to insure a suitable appointment, from time to time, of a Professor learned in the branches of law and equity aforesaid, and especially in the five aforesaid branches, I do declare that his residence at Cambridge shall never be required as a condition of holding his office, believing that the best Professors will generally be found among judges and lawyers eminent in practice in other places conveniently situated, and who, while Professors, may continue their offices or practice generally; also thinking law lectures ought to increase no faster than there is a demand for them. Clearly their greatest benefit will be in publishing them.

5. As the Honorable Joseph Story is, by study and practice, eminently qualified to teach the said branches both in law and equity, it is my

request that he may be appointed the first Professor on this foundation, if he will accept the same; and, in case he shall accept the same, it is to be understood that the course of his lectures will be made to conform to his duties as one of the Justices of the Supreme Court of the United States; and, further, that time shall be allowed him to complete, in manner aforesaid, a course of lectures on the said five branches, probably making four or more octavo volumes; and that all the lectures and teaching of him and of every Professor so to be appointed shall be calculated to assist and serve in a special manner law students and lawyers in practice; — sound and useful law being the object.

6. The number of lectures, and the manner of delivering them, I leave to the discretion of the Corporation, as I do all other matters and things not contravening the rules or statutes herein contained, placing full confidence in its wisdom and judgment.

But as the present state of the law branch in the said University, and the times of meeting of the Overseers thereof, allow less time to prepare statutes and system than is desirable, I reserve, so far as may be consistently done, liberty to put, before the first day of September next, the proper rules and statutes in the case into a more technical and intelligible form, strictly preserving the substance and principles herein contained.

The name of the Professorship I leave to the Corporation.

With sincere respect, your obedient servant,

(Signed,) NATHAN DANE.

At a Meeting of the Corporation, June 3, 1829, *it was*

Voted, That the Professor on this foundation shall be styled the Dane Professor of Law in Harvard University.

Voted, That this Professor shall be elected in the same manner in which other officers of the College are chosen, and shall hold his office by the same tenure as the Professors on other foundations, and shall be subject to removal by the President and Fellows for any cause by them deemed just and sufficient, the Overseers consenting thereto.

At a Meeting of the Corporation, August 20, 1829.

The Corporation having reserved the power to alter and modify, with the assent of the Overseers, the Statutes of the Royall Professorship of Law in the University, do hereby order and enact as follows:—

1. The third article of the said former statutes, so far as it respects the residence of the Professor, is repealed, and he is required to reside in the town of Cambridge.

2. The sixth and seventh articles of the said statutes shall be and hereby are repealed.

[3. The Dane Professor of Law is considered for the present, and until the further order of the government, as the head of this department in the University. It shall be the duty of the Royall Professor, in conjunction with the Dane Professor, to devise and propose, from time to time, to the Corporation, such a course of instruction in the Law School as may best promote the design of that institution, and the interest and honor of the University; and to do all in his power to promote those objects. He shall have the immediate charge and oversight of the students, meeting them frequently, at stated periods, to ascertain their progress, to assist in and stimulate their studies, and to explain and remove such doubts and embarrassments as may occur in the course of their reading.] *

In addition to the familiar lectures and conversations at his above-mentioned meetings with the students, the Royall Professor will, if it should be deemed expedient by the Corporation, prepare and deliver written lectures on such branches of the law as are not included in the department of the Dane Professor; and in all his instructions, whether oral or written, he will not only endeavor to explain the principles of the English common law, but will show its various modifications in this country, by the principles of our constitutions of government, and by statutes, judicial decisions, and usages; and, generally, he will strive to lead the minds of the students to such inquiries and researches as will qualify them to become useful and distinguished supporters of our free systems of government, as well as able and honest advocates of the rights of the citizens. And it shall be in the power of the Corporation, with the assent of the Overseers, to vary, modify, enlarge, or wholly change the above course, and to prescribe any other duties not inconsistent with the general principles on which the Professorship is founded.

At a special Meeting of the President and Fellows of Harvard College, in Boston, August 1, 1846, *the following Report was made and adopted.*

THE Committee respectfully recommend, that the votes passed at a meeting held 20th August, 1829, † as a modification of the Statutes of the Royall Professorship, numbered 3, directing that the Dane Profes-

sor be considered, for the present, and until the further order of the government, as the head of the Law Department in the University, be rescinded, and in lieu thereof it be declared and enacted, That the senior Professor, for the time being, be considered the head of this Department in the University; also, that part of the same article, which provides that the Royall Professor shall have the immediate charge and oversight of the students, be rescinded, and in lieu thereof it be declared and enacted, That the Dane Professor of Law and the Royall Professor of Law shall equally and jointly have the charge and oversight of the students; so that the clause of said article, when amended, shall stand as follows: —

3. The senior Professor of Law, for the time being, is considered as the head of this Department in the University. It shall be the duty of the Dane Professor and the Royall Professor to devise and propose, from time to time, to the Corporation, such a course of instruction in the Law School as may best promote the design of that institution and the interest and honor of the University, and to do all in their power to promote those objects. They shall equally and jointly have the charge and oversight of the students, meeting them frequently, at stated periods, to ascertain their progress, to assist in and stimulate their studies, and to explain and remove such doubts and embarrassments as may occur in the course of their reading.

At a Meeting of the President and Fellows of Harvard College, at Boston, May 31, 1862, *it was*

Voted, That the University Professorship of Law shall henceforth be known and named as the Bussey Professorship of Law; and the present University Professor of Law shall henceforth be called the Bussey Professor of Law, and he shall give such lectures and instruction, and upon such branches of the Law, and perform such duties in the Law School, as shall from time to time, by any statutes and orders, be assigned to, or required of, the Bussey Professor of Law.

And "An Introduction to Geometry and the Science of Form, prepared from the most approved Prussian Text-Books," as far as the Seventh Section, or Hill's First Lessons in Geometry.

HISTORICAL DEPARTMENT.

Mitchell's Ancient and Modern Geography.
Smith's Smaller History of Greece, or Sewell's History of Greece.
History of Rome in Worcester's Elements of History.

---

* Equivalents for the prescribed text-books, if *real* equivalents, are accepted.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman* Class.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 13th and 14th, 1863), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior* Classes will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, September 3d and 4th, 1863, attendance on both days being required. The candidates will assemble on Thursday, September 3d, in No. 16 University Hall, at 8 o'clock, A. M. On the next Monday, September 7th, the further examination of candidates offered for the Junior and Senior Classes (including those offered on Commencement week) will take place, beginning at 8 A. M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be his intention, if admitted, to join his Class immediately.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing,

---

* Candidates for admission to the *Sophomore* Class who apply in July must either *finish* their examination at that time, or begin as new applicants at the examination in September.

the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies: —

1. In the studies required for admission to the Freshman Class.

2. In all the *required* studies already gone over by the Class for which he is offered.*

3. If he apply for admission to the *Senior* Class, in one of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

---

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

LECTURES TO UNDERGRADUATES.

FIRST TERM.

Senior Class.*

Modern Literature, — Professor Lowell, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — Professor Wyman, Tuesday and Thursday, at 12 o'clock, in Boylston Hall.

Mathematics, — Professor Peirce, Tuesday and Thursday, at 12 o'clock, in Harvard Hall. This course begins after Professor Wyman's ends.

Acoustics and Mechanics, — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Mechanics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Chemistry, — Professor Cooke, Thursday, at 12 o'clock, in Boylston Hall.

Sophomore Class.

Greek Language and Literature, — Professor Goodwin, Friday, at 11 o'clock, in No. 16 University Hall.

SECOND TERM.

Senior Class.

Philosophy, — Professor Bowen; — or *History*, — Professor Torrey, Friday, at 5 o'clock, in Harvard Hall.

Modern Literature, — Professor Lowell, Thursday, at 4 o'clock, in Harvard Hall.

Magnetism, &c., — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Mechanics and Optics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — Professor Gray, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

Sophomore Class.

Chemistry, — Professor Cooke, Friday, at 12 o'clock, in Boylston Hall.

---

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 3 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Technology by *Professor Horsford*, in No. 16 University Hall, from 12 to 1 on Thursday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, German, French, and Spanish are elective studies, and in the Senior year Latin, Greek, Mathematics, Patristic and Modern Greek, and advanced Italian; the rest are required.

EXAMINATIONS.

EACH Class is examined annually, in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. Separate classes for Graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. The fee for attendance and instruction is two dollars a Term.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows: —

Instruction, Library, Lecture-rooms, ...	$75.00
Rent and care of Room, in the College Buildings, ...	20.00
Board for 40 weeks at $3.50 per week, ...	140.00
Text-books (average), ...	12.00
Special Repairs, &c., ...	from 1 to 2.00
	$249.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $8.00 per cord for hard and $6.00 for pine wood, exclusive of sawing and splitting; and $7.00 a ton for anthracite, $12.00 for cannel, and $9.00 for Sydney and Scotch coal. For carrying coal into the buildings in the College yard and into College House, Brattle House, and Harvard Block, 50 cents a ton; into other buildings, 25 cents a ton. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $2.75 to $4.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-SIX Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars:—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the PRESIDENT'S SCHOLARSHIPS, four to be assigned to each Class.

And four, with an income of two hundred and fifty dollars each, called the TOWNSEND SCHOLARSHIPS, from the legacy of the late Miss Townsend.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen President's Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received on or before the 1st day of June of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, and as soon as the scales of rank for the year

can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised a few years since by subscription among the friends of the University, the

interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. It has been in operation about nineteen years. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules: —

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

Besides the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

Meritorious Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the 15*th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, and four in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a Resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation containing the true name of the writer.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

The Progress and Prospects of International Law.
The Jansenists.
Plutarch as a Moralist.

FOR MEMBERS OF THE SENIOR CLASS.

The Future of Australia.
The Botanical and Zoölogical Doctrine of Morphology.
A History and Criticism of the Text of Shakespeare's Plays.

FOR MEMBERS OF THE JUNIOR CLASS.

The Historical Basis of the Robin Hood Myths and Ballads.
American Literature in the Seventeenth Century.
The World's Indebtedness to Monastic Institutions.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

To HENRY AUSTIN CLAPP, *of the Law School.*

COMMITTEE. — The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To JAMES VILA BLAKE, *a First Prize.*
" JAMES MILTON LORING, *a Second Prize.*

COMMITTEE. — The Hon. Waldo Flint, W. R. P. Washburn, Esq., and the Rev. Samuel K. Lothrop, D.D.

Junior Class.

To FREDERIC BROOKS, *a First Prize.*
" JEREMIAH CURTIN, *a Second Prize.*

COMMITTEE. — The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and Epes S. Dixwell, Esq.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions must be left at the President's Office by the *first day of May*, in sealed envelopes, accompanied by sealed letters containing the authors' names.

The following are the subjects of the Compositions for the present Academical Year.

For Latin Versification.

Shakespeare's *Comedy of Errors*, Act. III. to the line, "Thou wouldst have changed thy face," to be turned into Senarii.

For Greek Prose.

The passage from Gibbon's Roman Empire, Chap LXXI., second and third paragraphs from the end, beginning, "When Petrarch first gratified his eyes," and ending, "once savage countries of the North," to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year: —

For Latin Versification.

To Arthur Cortlandt Parker, *of the Senior Class.*

For Greek Prose.

To Edward Gray Stetson, *of the Junior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 18th, 1861.

The two First Prizes.

To BENJAMIN THOMPSON FROTHINGHAM, *of the Senior Class.*
" THOMAS WATERMAN, *of the Junior Class.*

The three Second Prizes.

To EDWARD DARLEY BOIT, *of the Senior Class.*
" EDWARD BANGS DREW, *of the Senior Class.*
" WALTER WHITNEY HAMMOND, *of the Senior Class.*

V. HARVARD MATHEMATICAL PRIZES.

No mathematical prize is offered for the present year.

One prize of two hundred and fifty dollars, the gift of the Hon. John C. Gray, was awarded, for the last academic year,

To SAMUEL CUSHMAN HAVEN, *of the Senior Class.*

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College: —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

No house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations: —

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the

Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

6. No Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

The foregoing provisions of law, notwithstanding their obvious utility, having for some time been falling into disuse, it has been judged highly expedient by the Faculty and Corporation of the University, that they should be revived.

But inasmuch as circumstances may render it unnecessary or inconvenient to apply the foregoing law in all cases, it has been determined for the present that those Students only shall be placed under the care of the Patron, whose parents or guardians shall signify to the President their desire to that effect, and their willingness to allow the commission above mentioned for his services.

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $2.75 to $4 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing, —

The Hebrew Language;

The Principles of Criticism and Interpretation;

The Criticism and Interpretation of the Scriptures;

Natural Religion, and the Evidences of Revealed Religion;

Systematic Theology, Christian Ethics, and Practical Divinity;

Church History, and Church Polity;

The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

It is considered of great importance, that those who enter the School should be present at the beginning of the First Term.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows: —

FIRST YEAR.

Commencing in the years 1860, 1862, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*
Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*
University Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*
Dane Professor. *Kent's Commentaries, Evidence, Contracts.*
University Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1861, 1863, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

UNIVERSITY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

UNIVERSITY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.00 to $4.00 per week,	from	$60	to $80
Room-rent, including care of room, but not making fires,		16	to 60
Furniture (if the Student does not furnish his room),		8	to 16
Washing,		7	to 15
Fuel, for the First or Winter Term, from August to January,		12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.			
Servant (if one is employed) to make fires, &c.,		5	to 10
		$108	to $206

Students may enter into economical arrangements, by which board need not exceed $2.00 or $2.50 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Influence of the Roman Law in the Formation and Determination of of the Rules and Principles of the English and American Law.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of the Rights of Property or Easement in Subterranean Water.

The following prizes were assigned for the last year: —

For Dissertations, "Of the Rules and Reasons for distinguishing Property into Real and Personal."

To ALBERT STICKNEY, of Cambridge, Mass., the First Prize of *sixty dollars.*

To CHARLES LOUIS SWAN, of South Easton, Mass., the Second Prize of *fifty dollars.*

For Dissertations, "Of the Recent Changes in the Laws relative to the Property of Married Women."

To WILLIAM GARDNER COLBURN, of Manchester, N. H., the First Prize of *fifty dollars.*

To JOHN PEARCE TREADWELL, of Portsmouth, N. H., the Second Prize of *forty dollars.*

Committee. — HON. JOHN APPLETON, of Maine.
WILLIAM CURTIS NOYES, ESQ., of New York.
HON. PLINY MERRICK, of Massachusetts.

COURSE OF STUDY.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, except in extraordinary cases. The special requisites for admission to the Departments of Chemistry and Engineering are stated below.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong. They are expected statedly to attend religious worship, at such place as their parents or guardians may direct.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Departments of Chemistry and Engineering, examinations are held each term upon the work of that term, and no Student will be admitted to an examination for a degree in either of these Departments who has not passed all the term examinations of the Department.

I. CHEMISTRY.

This Department provides an extended course of instruction for Students who seek a scientific education, based mainly upon Chemistry and Physics, but including the elements of several other sciences, and also receives *special* Students, who desire to study either Chemistry alone, or Chemistry in any of its applications in the Arts.

The regular course of instruction in this Department will include —

Recitations in Experimental Chemistry, Qualitative Analysis, Chemical Physics, and the Applications of Chemistry to the Arts.

Recitations in Algebra, Trigonometry, Physiology, Mineralogy, and Political Economy.

The Academic Lectures on Chemistry, Physics, Botany, and Anatomy.

Practical instruction in the Laboratory in the various branches of Chemical Analysis, Manufacturing Chemistry, Metallurgy, and Pharmacy.

The Laboratory is open from 9 o'clock, A. M. till 5 o'clock, P. M.; it is closed on Saturday afternoon.

Every Student is expected to give his attendance at the Laboratory during Laboratory hours, unless otherwise occupied by recitations or lectures.

Students who wish to learn so much Chemistry as may be applied in the profession of Medicine, in Pharmacy, or in any particular

branch of Manufacturing Chemistry, will attend only those recitations and lectures of the regular course which are applicable to their special wants.

A knowledge of the elements of Algebra, Geometry, and Trigonometry (*including Logarithms*), and an acquaintance with Stöckhardt's Elements of Chemistry, or its equivalent, are desirable for the advantageous pursuit of the studies of this Department.

Text-Books.

Fowne's Chemistry.
Galloway's Manual of Qualitative Analysis.
Will's Outlines of Chemical Analysis.
Fresenius's Quantitative Analysis.
Cooke's Chemical Physics.
Miller's Chemical Physics.
Miller's Elements of Chemistry.
Bowman's Medical Chemistry.
Dalton's Physiology.
Bowen's Political Economy.
Dana's Mineralogy.
Davies's Bourdon.
Peirce's Trigonometry.

Books of Reference.

Gmelin's Hand-Book of Chemistry.
Pelouze and Frémy's Traité de Chimie Générale.
Graham-Otto's Ausführliches Lehrbuch der Chemie.
Muspratt's Chemistry applied to Arts and Manufactures.
Lehmann's Physiological Chemistry.
Percy's Metallurgy.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine liv-

ing and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.
De la Beche's Geological Manual,
Geological Observer, and Researches in Theoretical Geology.
Lyell's Elements of Geology, and
Principles of Geology.
Guyot's Earth and Man.

For Local Information.

Hitchcock's Geology of Massachusetts. Also,
The Geological Reports published by the different States.
Lyell's Travels in North America.

III. ENGINEERING.

STUDENTS in Engineering will give their attendance at the School from 9 o'clock, A. M. to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required for admission.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the second term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.
Carpenter's General and Comparative Physiology, 4th ed.
Wagner's Comparative Anatomy of Vertebrated Animals.
Rymer Jones's Outlines of the Animal Kingdom.
Kirke and Paget's Hand-Book of Physiology.
Agassiz's Lectures on Comparative Embryology.
Owen's Lectures on Comparative Anatomy.
Müller's Physiology.
Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

Professor Cooke will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 34.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction six days in the week, per Term of twenty weeks, *fifty dollars;* for Laboratory apparatus and supplies, *fifty dollars;* for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction six days in the week, *fifty dollars* per Term; for three days in the week, two thirds, and for one day, one third, of the above sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

In the Department of MINERALOGY, for instruction three hours a week (see p. 78) during the Second Term, *fifteen dollars*.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 64.

For further information concerning the School, application may be made to Professor CHARLES W. ELIOT.

ASTRONOMICAL OBSERVATORY.

FACULTY.

THOMAS HILL, D.D., *President.*
GEORGE P. BOND, A.M.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, in Meteorological and Magnetical Investigations, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

Herschel's Outlines of Astronomy.
Loomis's Practical Astronomy.
Delambre's Astronomie Théorique et Pratique.
Bowditch's Practical Navigator and Tables.
Baily's Astronomical Tables and Formulæ.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the winter course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the winter term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instru-

ments. Students have an opportunity of seeing surgical operations, and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the summer term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the lecture term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the summer term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the summer term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

A Clinical Conference is held every Friday afternoon during the Winter Term by the Professors of Clinical Medicine and of the Theory and Practice of Physic, assisted by other medical officers of the Massachusetts General Hospital, at which the members are practised in relating, recording, and commenting on medical and surgical cases.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are exhibited to the students. During the summer session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the winter course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During the Summer Term, frequent recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry daily, for two months.

FEES.

THE fee for matriculation is $ 3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the winter courses of Lectures.

The fee for instruction during the long term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $ 100.

The fees for the winter courses of Lectures amount in all to $ 80, which are required to be paid when the tickets are taken.

The fee for graduation is $ 20, which is deposited with the Dean when application is made to him for examination.

A fee of $ 5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the summer course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a summer course of instruction involves no change in the amount or character of the winter courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the winter courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the *Senatus Academicus*.

Those candidates who have at the spring examination received from the *Senatus Academicus* the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

An Annual Prize is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

Committee for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary;* Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

MUSEUM OF COMPARATIVE ZOÖLOGY.

OLIVER WENDELL HOLMES, M.D.
JEFFRIES WYMAN, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 99,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

☞ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	99,000
Medical "	2,000
Law "	13,000
Theological Library	13,000
Lawrence Scientific Library	7,000
Phillips Astronomical Library	1,500

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined as follows: —

LATIN DEPARTMENT.

In the whole of Virgil,
The whole of Caesar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.

In Felton's Greek Reader, or the whole of the Anabasis of Xenophon and the first three books of the Iliad (omitting the Catalogue of Ships in the second book),
Sophocles's, Crosby's, or Hadley's Greek Grammar, including Prosody and Versification,
And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

In Chase's Common School Arithmetic,
Sherwin's Common School Algebra, to Section XXXVIII.,
And in Hill's Second Book in Geometry, Parts I. and II., or "An Introduction to Geometry and the Science of Form," as far as Part III. VII. page 130.

HISTORICAL DEPARTMENT.

In Mitchell's Ancient and Modern Geography.
Smith's Smaller History of Greece, or Sewell's History of Greece. And the History of Rome in Worcester's Elements of History.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman* Class.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 18th and 19th, 1864), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior* Classes will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, September 1st and 2d, 1864, attendance on both days being required. The candidates will assemble on Thursday, September 1st, in No. 16 University Hall, at 8 o'clock, A. M. On the next Monday, September 5th, the further examination of candidates offered for the Junior and Senior Classes (including those offered on Commencement week) will take place, beginning at 8 A. M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be his intention, if admitted, to join his Class immediately.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies: —

1. In the studies required for admission to the Freshman Class.

---

* Candidates for admission to the *Sophomore* Class who apply in July must either *finish* their examination at that time, or begin as new applicants at the examination in September.

2. In all the *required* studies already gone over by the Class for which he is offered.* .

3. If he apply for admission to the *Senior* Class, in one of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of $45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

---

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

Only *real* equivalents for the prescribed text-books are accepted.

Integral Education, — President Hill, Tuesday, at 10 o'clock, in No. 8 University Hall. This course begins after Professor Shattuck's ends.

SECOND TERM.

Senior Class.

History, — Professor Torrey, Friday, at 5 o'clock, in Harvard Hall.

Mutual Relations of the Sciences, — President Hill, Tuesday, at 11 o'clock, in Harvard Hall.

Greek Language and Literature, — Professor Goodwin, Wednesday, at 12 o'clock, in 16 University Hall.

Hydrostatics, &c., — Professor Lovering, Thursday, at 11 o'clock, in No. 2 University Hall.

Junior Class.

Mechanics, — Professor Lovering, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — Professor Gray, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

Sophomore Class.

English Literature, — Professor Child, Monday, at 12 o'clock, in University Hall.

Chemistry, — Professor Cooke, Friday, at 12 o'clock, in Boylston Hall.

---

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 3 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Heat by Professor Gibbs, from 12 to 1 on Tuesday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, Patristic and Modern Greek, German, Italian, and French, are elective studies; — in the Senior year Latin, Greek, Mathematics, and advanced Italian, with a maximum mark of 8; Patristic Greek, German, and Spanish, with a maximum mark of 6. The other studies of the Junior and Senior years are required.

EXAMINATIONS.

EACH Class is examined annually, in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. Separate classes for Graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. A charge of two dollars a Term for attendence and instruction is made in the bills of every Undergraduate.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms,	$75.00
Gymnasium,	4.00
Rent and care of Room, in the College Buildings,	20.00
Board for 40 weeks at $4.00 per week,	160.00
Text-books (average),	12.00
Special Repairs, &c.,	from 1 to 2.00
	$273.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at $11.00 per cord for hard and $ 9.00 for pine wood, exclusive of sawing and splitting; and $9.00 a ton for anthracite, $ 16.00 for cannel, and $ 11.00 for Sydney and Scotch coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty cents a ton. On and after October 1, 1863, anthracite coal will be furnished at the market-price. For carrying coal into the buildings in the College yard and into College House, Brattle House, and Harvard Block, 50 cents a ton; into other buildings, 25 cents a ton. The rent of rooms in private houses is from $52 to $100 per annum. The price of board varies from $3.50 to $5.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

☞ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

☞ *The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.*

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-SIX Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars:—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the PRESIDENT'S SCHOLARSHIPS, four to be assigned to each Class.

And four, with an income of two hundred and fifty dollars each, called the TOWNSEND SCHOLARSHIPS, from the legacy of the late Miss Townsend.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen President's Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year

can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

Various bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by subscription among the friends of the University, the interest of which,

amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules: —

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

Besides the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

Meritorious Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

PRIZES.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, eight in the Junior Class, and one in the Senior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

IN the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows: —

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May. No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year: —

FOR RESIDENT GRADUATES.

The Chancellor L'Hôpital.
The Foundations, Uses, and Abuses of Classification.
The Relations of Revealed Religion to Slavery in all Ages.

FOR MEMBERS OF THE SENIOR CLASS.

Alexander Hamilton as a Statesman.
The Contributions of H. C. Carey to Political Economy.
The Social Position of Men of Letters in Rome, from the Accession of Augustus to the Death of Trajan.

FOR MEMBERS OF THE JUNIOR CLASS.

The Roman Senate in the time of the Emperors.
Heat as a Form of Motion.
Shakespeare's and the Greek Tragedians' Portraits of Woman.

The prizes for the last Academic Year were assigned as follows: —

Resident Graduates.

No Prize awarded.

COMMITTEE. — The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To WILLIAM AUGUSTUS WHITE, *a First Prize.*
" JOSIAH LOMBARD, *a Second Prize.*

COMMITTEE. — The Rev. Samuel K. Lothrop, D.D. and W. R. P. Washburn, Esq.

Junior Class.

To JAMES THOMPSON BIXBY, *a First Prize.*
" WILLIAM REED, *a Second Prize.*

COMMITTEE. — The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and Epes S. Dixwell, Esq.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year.

For Latin Versification.

Thomson's Seasons, *Autumn*, from, "Defeating oft the labors of the year," to, "And all-involving winds have swept away," to be turned into Hexameters.

For Greek Prose Composition.

The last six paragraphs of Webster's Speech on the Revolution in Greece, beginning, "It may now be asked," to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year: —

For Latin Versification.

To Isaac Flagg, *of the Junior Class.*

For Greek Prose.

To William Hyde Appleton, *of the Junior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863.

The two First Prizes.

To CHARLES COOLIDGE READ, *of the Senior Class.*
" JOHN WESLEY CHURCHILL, *of the Junior Class.*

The three Second Prizes.

To HORACE WINSLOW WARREN, *of the Graduating Class.*
" JOHN ADAMS BLANCHARD, *of the Senior Class.*
" GEORGE GLOVER CROCKER, *of the Senior Class.*

V. PRIZES FOR READING.

Through the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 18, 1864,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1864–5), at a public trial on Saturday, Oct. 8, 1864,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1864–5, at a private trial, September, 1864,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public contest, held June 13, 1863, there were awarded in the

Senior Class.

First Prizes to EDWARD BANGS DREW,
HENRY LUNT;

Second Prizes to ADOLPHUS WILLIAMSON GREEN,
HENRY FITCH JENKS,
MARSHALL AYRES;

And in the

Freshman Class,

First Prizes to SAMUEL HENDERSON VIRGIN,
CHARLES BROOKS BRIGHAM;
Second Prizes to EDWARD HENRY CLARK,
EDWARD AUGUSTUS CAPEN,
SAMUEL QUARLES FRENCH.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College: —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations: —

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws; that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

☞ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books: —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia;

Geography, Arithmetic, Geometry, and Algebra;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of $200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to $75 annually. Board may be had in the city at various prices, from $3.50 to $5.00 a week. Rooms in Divinity Hall are let to other than Divinity Students at $30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing, —

The Hebrew Language;

The Principles of Criticism and Interpretation;

The Criticism and Interpretation of the Scriptures;

Natural Religion, and the Evidences of Revealed Religion;

Systematic Theology, Christian Ethics, and Practical Divinity;

Church History, and Church Polity;

The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of $200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, $150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1862, 1864, &c.

First Term.

Royall Professor. *Agency, Equity Jurisprudence.*
Dane Professor. *Blackstone's Commentaries, Insurance, Evidence.*
Bussey Professor. *Law of Real Property, Arbitration.*

Second Term.

Royall Professor. *Pleading, Constitutional Law.*
Dane Professor. *Kent's Commentaries, Evidence, Contracts.*
Bussey Professor. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1863, 1865, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

BUSSEY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSEY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School, — or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year, — are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are $50 a Term, and $25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of $5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of $10 per annum.

The other expenses for a Term are nearly as follows: —

Board, in boarding-houses, twenty weeks, from $3.50 to $4.50 per week,	from $70	to $90
Room-rent, including care of room, but not making fires,	16	to 60
Furniture (if the Student does not furnish his room),	8	to 16
Washing,	7	to 15
Fuel, for the First or Winter Term, from August to January,	12	to 25
" for the Second or Summer Term, from February to July, from $6 to $10.		
Servant (if one is employed) to make fires, &c.,	5	to 10
	$118	to $216

Students may enter into economical arrangements, by which board need not exceed $2.50 or $3.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows: —

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year: —

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Rights, Duties, and Responsibilities of the Directors, Trustees, and Managers of Corporations as they relate to the Stockholders.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

The Extent to which the Doctrine of Tenure, as known to the Common Law, exists in this Country, and the Cases and Manner in which it affects the Rights of Landholders.

The following prizes were assigned for the last year: —

For Dissertation, "The Influence of the Roman Law in the Formation and Determination of the Rules and Principles of the English and American Law."

To ALONZO BOND WENTWORTH, of Somersworth, N. H., a Prize of *sixty dollars.*

For Dissertations, "Of the Rights of Property or Easement in Subterranean Water."

To WILLIAM HENRY TOWNE, of Brookline, Mass., the First Prize of *fifty dollars.*

To MELVILLE EZRA INGALLS, of Harrison, Me., the Second Prize of *forty dollars.*

Committee. — HON. ALONZO C. PAIGE, of New York.
ASA I. FISH, ESQ., of Pennsylvania.
THOMAS C. PERKINS, ESQ., of Connecticut.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. The *parallel course* is prescribed chiefly for private reading.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of $200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on Monday, January 18, or July 18; or, if unable to come on those days, on Thursday, March 3, or September 1, 1864.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

Professor Gibbs will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Text-Books.

Fownes's Chemistry.
Will's Outlines of Chemical Analysis.
Fresenius's Analysis.
Cooke's Chemical Physics.
Miller's Chemical Physics.
Miller's Elements of Chemistry.
Bowman's Medical Chemistry.
Dalton's Physiology.
Dana's Mineralogy.

Books of Reference.

Gmelin's Hand-Book of Chemistry.
Pelouze and Frémy's Traité de Chimie Générale.
Graham-Otto's Ausführliches Lehrbuch der Chemie.
Muspratt's Chemistry applied to Arts and Manufactures.
Lehmann's Physiological Chemistry.
Percy's Metallurgy.
Regnault's Elements de Chimie.
Knapp's Chemical Technology.
Bolley's Chemical Technology.

II. ZOÖLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in Term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.
De la Beche's Geological Manual, Geological Observer, and Researches in Theoretical Geology.
Lyell's Elements of Geology, and Principles of Geology.
Guyot's Earth and Man.

For Local Information.

Hitchcock's Geology of Massachusetts. Also,
The Geological Reports published by the different States.
Lyell's Travels in North America.

III. ENGINEERING.

STUDENTS in Engineering will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.
Carpenter's General and Comparative Physiology, 4th ed.
Wagner's Comparative Anatomy of Vertebrated Animals.
Rymer Jones's Outlines of the Animal Kingdom.
Kirke and Paget's Hand-Book of Physiology.
Agassiz's Lectures on Comparative Embryology.
Owen's Lectures on Comparative Anatomy.
Müller's Physiology.
Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 34.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

FEES.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are: —

In the Department of Chemistry, for instruction, per Term of twenty weeks, *fifty dollars;* for Laboratory apparatus and supplies, *fifty dollars;* for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of Engineering, for instruction five days in the week, *fifty dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

In the Department of Mineralogy, for instruction three hours a week (see p. 77) during the Second Term, *fifteen dollars.*

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course.* Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course,* and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 64.

For further information concerning the School, application may be made to Professor Gibbs.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday (March 16, 1864) instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the Winter Course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the Winter Term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instruments. Students have an opportunity of seeing surgical operations,

and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the Summer Term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the Lecture Term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the Summer Term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the Summer Term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

A Clinical Conference is held every Friday afternoon during the Winter Term by the Professors of Clinical Medicine and of the Theory and Practice of Physic, assisted by other medical officers of the Massachusetts General Hospital, at which the members are practised in relating, recording, and commenting on medical and surgical cases.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are exhibited to the students. During the Summer Session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the Winter Course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During the Summer Term, frequent recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry daily, for two months.

FEES.

The fee for matriculation is $3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is $100.

The fees for the Winter Courses of Lectures amount in all to $85, which are required to be paid when the tickets are taken.

The fee for graduation is $20, which is deposited with the Dean when application is made to him for examination.

A fee of $5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

The Faculty of Medicine of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend.

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination: —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporations and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

An Annual Prize is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

Committee for reading the Dissertations and adjudging their merit: — Edward Reynolds, M.D., *Chairman;* John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; Humphreys Storer, M.D.; *Secretary;* Charles G. Putnam, M.D.; Hill Wyman, M.D.; Henry J. Bigelow, M.D.

MUSEUM OF COMPARATIVE ZOÖLOGY.

FACULTY.

THOMAS HILL, D.D., LL.D, *President.*
LOUIS AGASSIZ, LL.D., *Curator of the Museum.*
JACOB BIGELOW, M.D., LL.D.
OLIVER WENDELL HOLMES, M.D.
JEFFRIES WYMAN, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

UNIVERSITY LECTURES.

Courses of Lectures, open to all graduates of colleges and public school teachers who enter their names, to persons connected with the University, except undergraduates, and to others on the payment of five dollars a term, were delivered in the Term commencing February 26th, 1863, as follows: —

On the Natural History of the Cretaceous Period, by Professor Louis Agassiz.

On the Connection of the Physical and Mathematical Sciences, by Professor Benjamin Peirce.

On the Study of Insects Injurious to Vegetation, by Samuel H. Scudder, S. B.

On the Classification of Sciences, by President Hill.

Outlines of the History of the Art of Design, by Mr. Louis Thies.

On some Characteristics of the Mediæval Revival of Learning, by Mr. Charles E. Norton.

On the Embryology of Echinoderms and Radiates generally, by Mr. A. E. R. Agassiz.

On Musical Form, by Mr. J. K. Paine.

The following are to be delivered in the Term commencing September 3d, 1863: —

On Determinants, by James E. Oliver, A. M.

On the Nebular Hypothesis, by Professor Benjamin Peirce.

On the Theory of Space developed by Quaternions, by Professor Benjamin Peirce.

Special Investigations in Dynamics, by William Watson, Ph. D.

How and What to Observe in Natural History, by Professor Louis Agassiz.

On English Literature, by Professor Lowell.

On the Uses of the Microscope in Anatomy, by Professor Oliver Wendell Holmes.

Instruction in Counterpoint and Fugue, by J. K. Paine.

LIBRARY.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 104,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

☞ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	104,000
Medical "	2,000
Law "	13,000
Theological Library	13,000
Lawrence Scientific Library	7,000
